

I support media diversity

After reading information on your actions to be taken June 2, I am writing to oppose any further consolidation of the news media in all forms. There is not enough diversity as it is and I feel we are not getting complete coverage. Such as: how many civilians were killed in Afghanistan and Iraq? Foreign news was sometimes better in their coverage than the U.S. media. This would be a very sad day for free press and that is one thing this country has had since its beginnings--the ability to hear and read issues from diverse viewpoints.

Sincerely,

Norma Burrows
